

24-26 September 2008

EPCC,
University of Edinburgh,
Scotland

Welcome

Please join us at the 5th Cray Technical Workshop Europe, hosted by EPCC at the University of Edinburgh in Scotland during 24-26 September 2008.

This workshop brings together industry recognized speakers from the HPC community and experts from Cray. Key topics include the latest scientific advancements using Cray supercomputers, and new innovative Cray technologies.

Venue

This year's event, hosted by EPCC, takes place in Edinburgh, the beautiful capital of Scotland. The workshop will be held in the heart of the Old Town, at the National e-Science Centre.

Accommodation

A list of hotels, with specially negotiated rates and situated close to the Old College will be made available in due course.

Registration and additional Information
